The screenshot shows the 'Course Evaluation Results Summary' page for 'V4127 Exhibition Studies (AUT09/10)'. The page includes a warning message: 'The University considers that a response rate of at least 50% is desirable in terms of providing representative data. The response rate achieved for this course is lower than 50% so results should be treated with caution.' Below the warning, there is a table with five columns: Strongly Disagree, Disagree, Neutral, Agree, and Strongly Agree. The table shows the following data: 16/40 (40.0%) students have done the questionnaire. The page also includes a 'Teaching Convenor's Comments:' section and a 'Help' link.

5. The course evaluation results will be displayed for the course, along with convenor comments if they have been entered. If the response rate for the course evaluation has been low, then the CEQ results will not be shown.
