

This Guide was written by Claire Durrant, doctoral researcher in Social Work at the University of Sussex, with the support of the [U-DOC](#)

901P11000

At the end of each academic year, the initiative can be evaluated using a short online questionnaire set up by the Doctoral School.

The Doctoral School will provide doctoral researchers with the link to the questionnaire at the end of each academic year or a year after the group is set up. The Doctoral School will also analyse the findings and make changes as appropriate. The Doctoral School will share and discuss the evaluation results in an annual webinar in which doctoral researchers can participate and ask questions. Following this webinar, it may be decided to make any amendments to these guidelines.
