

You are invited to share a message International Women in Engineering Day

Need inspiration?

a celebration of a woman engineer
a female student
researcher, a historical figure
contemporary

a thank you to anyone who inspires
you from outside engineering

a message of support from
any

a wish for the future

words of encouragement
young women considering
subjects at school or university

This year is celebrated on 23 June 2020 by
Ferheen Ayaz, research fellow and School
EDI/AS member

The theme will be 'Inspiring the next generation'
submissions can be emailed in to info@enginf-communication.com

International
Women
in Engineering Day

Practise in school or college
with trees are used by writing
communicating one's wishes, hopes and
dreams
attaching these offerings to trees
